## PROJECT MANAGER AND ENGINEER

Devon Thompson will be an exceptionally qualified Project Manager and Engineer for the detailed design phase of your project, bringing a wealth of expertise, leadership, and proven results that align perfectly with your requirements. With a robust 10 years of experience in engineering and project management, Devon has consistently demonstrated his ability to oversee complex projects, manage sub-trades, ensure quality control, and deliver outstanding outcomes — making him the ideal candidate to lead your design phase with precision and confidence.

His extensive experience managing projects valued between \$100,000 and \$1,000,000 demonstrates his capability to handle projects of significant scope and budget, ensuring alignment with your project's needs. Devon's role in managing sub-trades and maintaining rigorous quality control has been honed through his work with municipalities, educational facilities, and commercial/industrial clients. For instance, his projects with the City of Peterborough (lighting upgrades), the Toronto Catholic District School Board (electric vehicle charging station, lighting, public address, and fire alarm system upgrades), and Ontario Farms (photovoltaic system upgrades) highlight his ability to oversee complex, multi-faceted initiatives with precision and efficiency.

Critically, Devon has direct, recent experience managing detailed design projects of similar size and scope to your project. His track record in these roles underscores his ability to deliver high-quality, cost-effective designs while maintaining strict adherence to timelines, budgets, and standards — a testament to his meticulous project management skills and commitment to excellence.

Devon's educational background further solidifies his qualifications. He holds a Bachelor of Engineering in Industrial Engineering and an Advanced Diploma in Energy Systems Engineering Technology, providing him with a strong foundation in both theoretical and practical engineering principles. As a Professional Engineer (P.Eng) registered with the Ontario Professional Engineers (PEO), Devon adheres to the highest standards of professionalism and ethics, ensuring your project is in capable, certified hands.

## PROJECT ENGINEER

### EXPERTISE

- Lighting and Controls
- Designated Substances Remediation
- Public Address Systems
- Photovoltaic Systems
- Fire Alarm Systems
- Electric Vehicle Charging Stations
- Energy Audits
- CCTV
- Facility Building Systems Assessment
- Facility Layout Design
- Project Management

### RELEVANT EXPERIENCE

#### MUNICIPALITIES

- City of Peterborough - Lighting Upgrade

#### EDUCATIONAL FACILITIES

- *Toronto Catholci District School Board*
  - *Lighting and Controls Upgrade*
  - *Public Address System Upgrade*
  - *Electric Vehicle Charging Station Upgrade*
  - *Fire alarm System Upgrade*
  - *Designated Substances Abatement*
  - *Power Distribution System Upgrade*
  - *CCTV System Upgrade*
  - *Back Up Generator Upgrade*

#### COMMERCIAL AND INDUSTRIAL

- *Ontario Farms* - Photovoltaic System Upgrade
- *Private Residential* - Electrical Systems Design

### EDUCATION

#### **Bachelor of Engineering in Industrial Engineering**

Caribbean Maritime Institute

#### **Advanced Diploma in Energy Systems Engineering Technology**

Centennial College

### CERTIFICATIONS/PROFESSIONAL AFFILIATIONS

#### **Professional Engineer**

Institution: Professional Engineers Ontario (PEO)
